

PATRONAGE DIVIDENDS

**OUR BOARD OF DIRECTORS
RECENTLY VOTED TO RETIRE
\$760,000.00 FOR
2023 PATRONAGE DIVIDENDS.**

This includes full or partial allocations for those who were members in 1994, 1995 and 2022. At the end of every fiscal year, any funds remaining after the cooperative pays operating expenses are allocated to your patronage accounts based on the electricity you used the previous year. The Board then has the option to vote to retire a portion of that account as patronage dividends. These dividends are one of the many benefits of being a member of High West Energy. This is the 38th consecutive year our members will be receiving patronage dividends!

Members receiving more than \$50 in dividends have the following options*:

1. Apply the dividend amount to your bill.
2. Donate your patronage dividends to Operation RoundUp®, helping support others in a time of loss or need.
3. Receive a check in the mail.

Members receiving \$50 or less will receive their dividend as a bill credit.*

If you received a dividend in 2022, you will automatically get this year's dividend the same way you received last year's, unless you request a change.

To update or change your selection, please call 307-245-3261.

**Members must make their selections no later
than Tuesday, October 31.**

Your generosity makes a difference.

Operation Round Up is a voluntary program where members can choose to add a few pennies to their monthly bill to help those in need. Since the program began in 2015, members have donated more than \$250,000! We are touched and humbled by your generosity.

Thank you!
