

NET METERING SERVICE

Applicable

Throughout the Cooperative's service area for qualifying members in accordance with the Cooperative's membership agreement, Bylaws, policies, regulations, and the Conditions of Service set forth herein, as well as applicable Rules of the Wyoming Public Service Commission.

To members who install and use facilities primarily to offset part or all the member-generator's requirements for electricity by using solar, wind, biomass, or hydropower. The production of electrical energy is located on the member-generator's premises. Service under this schedule is limited to a maximum capacity of 25 kW. This schedule is offered in compliance with Wyoming Statute §§ 37-16-101 to 104.

Available

To all members not on a Time of Day rate.

Type of Service

Single-phase, 60 hertz, at available secondary voltage.

Monthly Rate

The monthly billing from the Cooperative shall be in accordance with the applicable rate schedule. The member is responsible for any existing contract minimum on the account.

Adder

If a member elects to incur an additional charge for purchase of "Renewable Energy" the charge will be \$0.003 per subscribed kWh not to exceed total monthly usage.

Generation Credit

The Cooperative shall pay for all energy generated in excess of the member's usage at no less than the effective avoided energy cost.

Special Conditions

1. If the electricity supplied by the Cooperative exceeds the electricity generated by the member-generator, the price specified in the Energy Charge section of the Monthly Rate of the applicable standard service tariff shall be applied to the positive balance owed to the Cooperative.
 - a. If the electricity supplied by the member-generator exceeds that supplied by the Cooperative, the member will be billed for the appropriate monthly charges and shall be credited for such net energy with the kilowatt-hour credit appearing on the bill for the following month.
 - b. At the beginning of each calendar year, any remaining unused kilowatt-hour credit accumulated during the previous year shall be sold to the Cooperative at no less than the average avoided energy cost for the applicable calendar year.
2. A net metering facility shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and Underwriters Laboratories.
3. The member-owner is responsible for all costs associated with its facility, for all costs related to any modifications to the facility, and for all costs related to the facility that may be required by High West Energy for the purposes of safety and reliability.
4. The member-generator shall, at its expense, provide lockable switching equipment capable of isolating the net metering facility from the Cooperative's system. Such equipment shall be approved by the Cooperative and shall be accessible by the Cooperative at all times.
5. The Cooperative shall not be liable directly or indirectly for permitting or continuing to allow an attachment of a net metering facility or for the acts or omission of the member-generator that cause loss or injury, including death, to any third party.
